Individually combined  
in every situation.

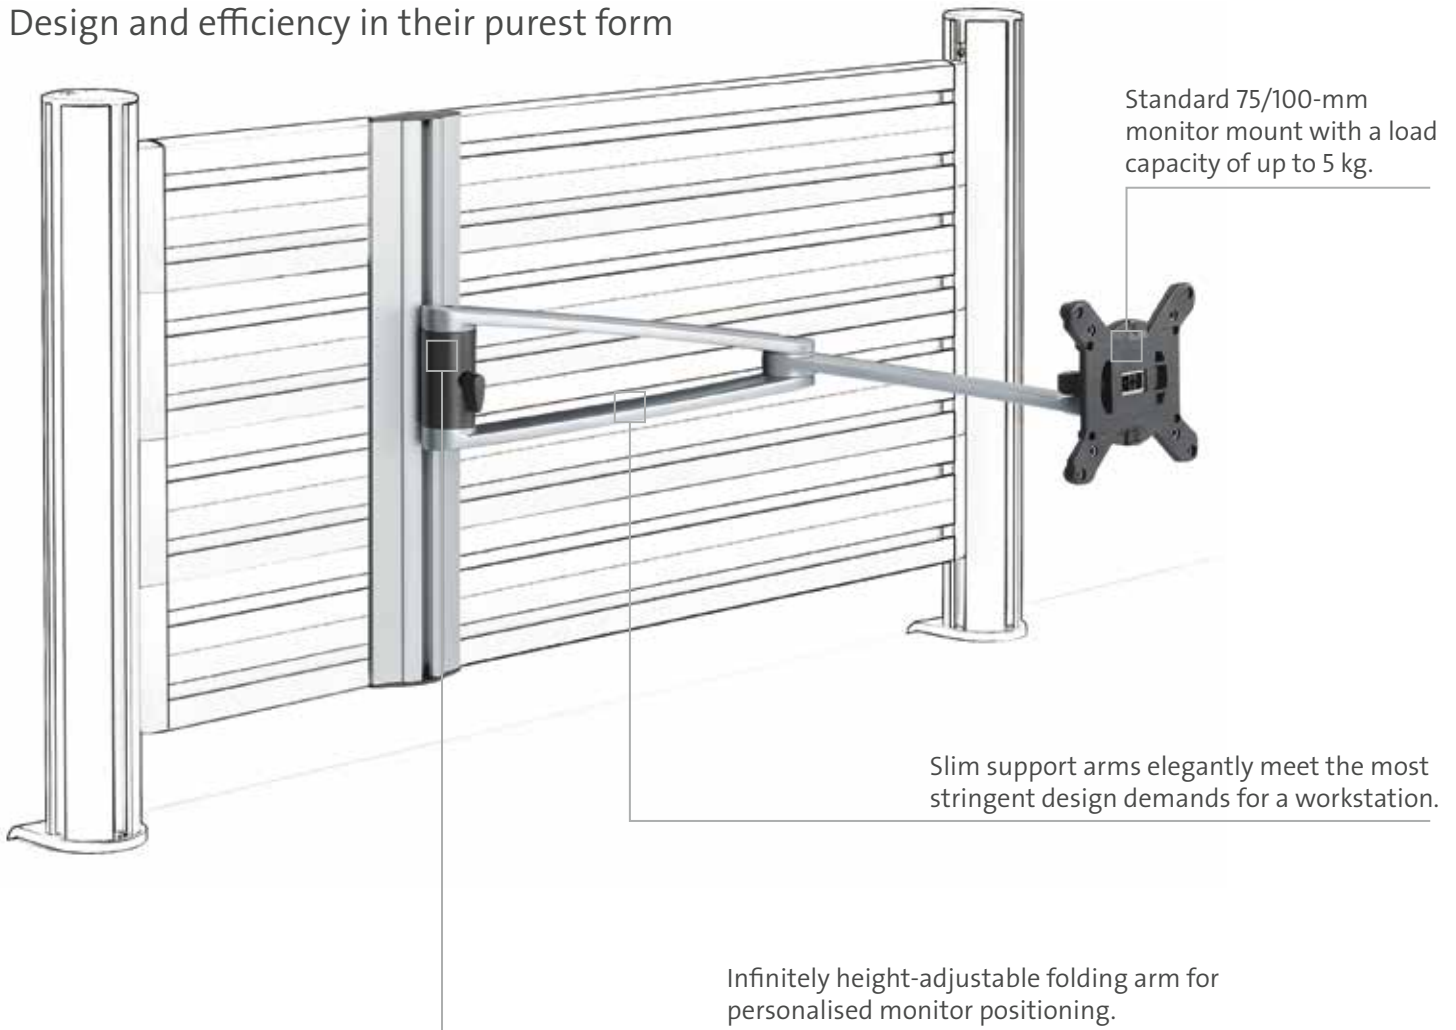

Perfect support available everywhere for cutting-edge flat-screen monitors, laptops and tablet PCs – a customised and ergonomic solution.

*Enjoy our new NOVUS MY Series  
with improved functions from  
01/04/2020!*

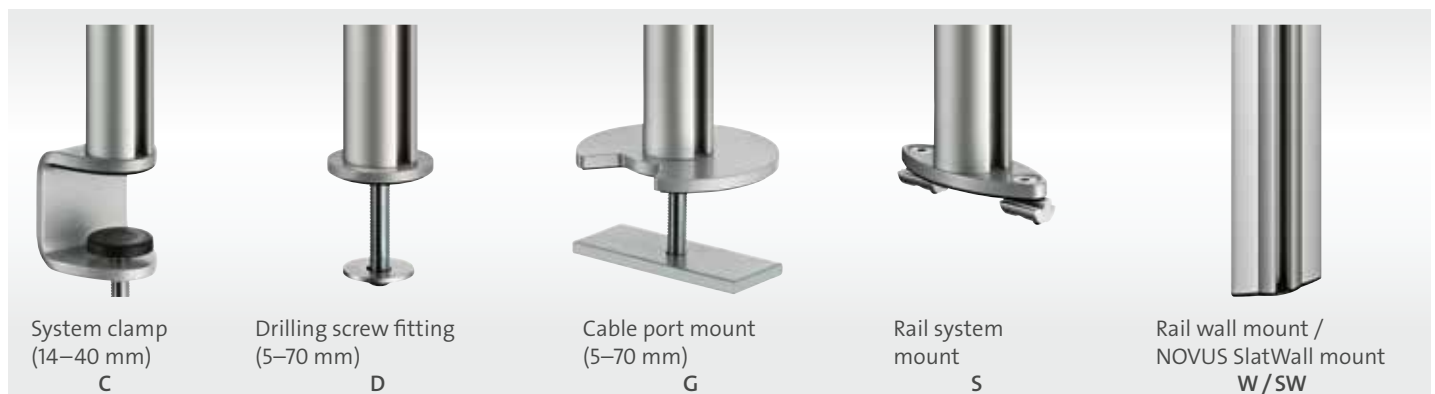

## Novus MY: solutions for more style and efficiency at the workplace

Novus MY combines form, function and elegance in attractive product solutions with a stylish look. The series includes perfect support arm solutions and holders for monitors, notebooks and tablet PCs. Their flexibility and manoeuvrability mean every workstation can be optimally organised.

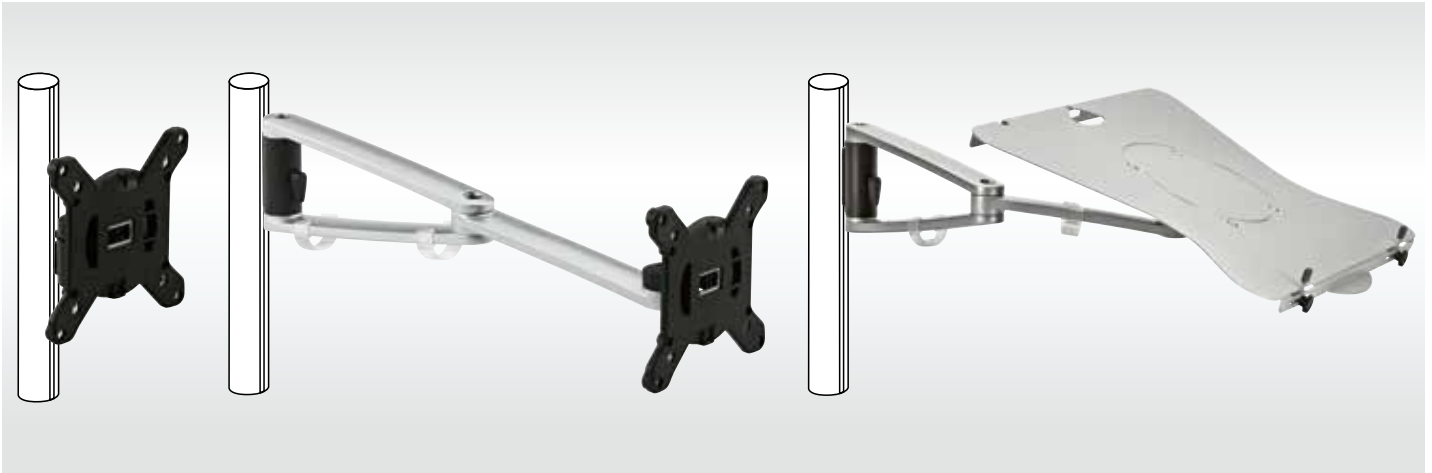

### Design and efficiency in their purest form

### Suitably secured

## Cleverly combined

Support carriage / 2-part articulated arm / notebook holder: allows the desired position of the monitor or notebook to be precisely adjusted to the individual user.

Adapter plate allows the monitor to be easily replaced.

Tablet holder for tablets sized 7" to 10".

Two monitors can be seen as easily as one.

Connection to an organisation wall possible.

 	915+1609+000	4009729062241

## Novus Clu – perfect for you!

The Novus Clu series of monitor arms gives monitors almost unlimited freedom of movement. The monitor can be turned from landscape to portrait format and moved in any direction, even completely flat up against an organisation wall or acoustic panel. The powerful, adjustable gas spring technology balances the monitor's weight up to a maximum of 7 kg and therefore ensures extremely easy handling at any time.

Elegant 2-part monitor arm with gas spring technology for comfortable, ergonomic monitor adjustment

Particularly suitable for varifocal wearers and touch displays, as the horizontal arm element allows the monitor to be positioned at a particularly low height

# Flat screen holder Novus Clu

## QuickRelease

Monitors can be attached and adjusted **easily by hand** by a single person without any tools. The holder fits all conventional monitors with the mounting standard 75 x 75 and 100 x 100.

## Stable joints

The high-quality pivot joint is significantly flatter than a conventional ball-and-socket joint and therefore offers practically unlimited freedom of movement **in every turning and tilting direction**. Even large monitors are easy to handle and will stay securely in the required position.

## Clever cable routing

All connection cables are organised and protected under the discreet cover. This also contains the powerful **gas spring** for first-class ease of use.

## NOVUS SlatWall

The Clu I SW is ideal for attachment to **organisation walls** and **acoustic panels**, such as the Novus MY toolbar or the Novus SlatWall.

## Special project solutions

Various mounting solutions are available to allow you to benefit from the full performance of the new monitor arms even when used in **combination with rail systems**. As well as these, we also develop special solutions for system rails, office partition walls, desks with free-form panels and clamps with different clamping heights and depths on request.

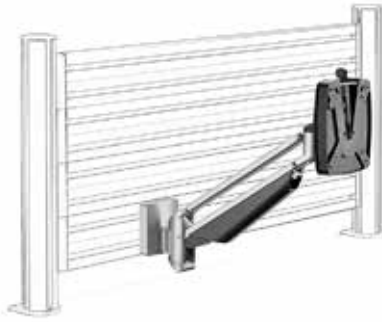

## 3-in-1 table mount

The standard mount component can easily be attached from above and covers three types of mounts in one: **clamp, cable port or drilling screw**. It is suitable for desktop thicknesses of 10–50 mm and offers optimum flexibility should a different mount from the standard one be required.

3-in-1: in just a few simple steps, the clamp can be turned into a drilling-screw or cable port mount.

#### NOVUS Clu I SW, with organisation wall mount

- Elegant 1-part monitor support arm with gas spring technology for a comfortable, ergonomic adjustment of the monitor
- Integrated SlatWall universal adapter for easy mounting with a central screw fitting for mounting in a single or double slot

## NOVUS Pila: Novus seating balls make a stylish and ergonomic seat.

Movement keeps you fit! Thanks to the centre of gravity inside the Pila, the ball does not roll away and so always provides a clean, dust-free seat.

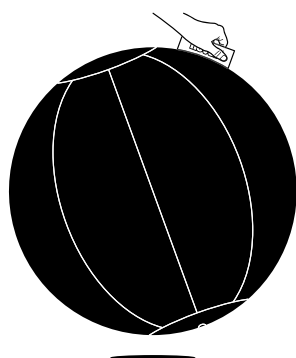

### Balance Ball

The weight reinforcement inside means the ball is self-levelling.

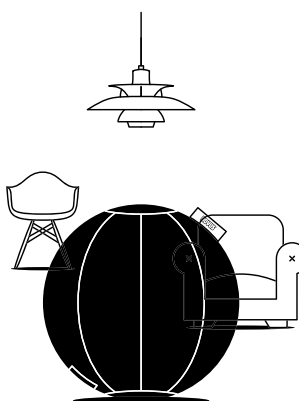

### Dust-repellent seat

With the internal Balance Ball, you avoid getting your clothes dusty.

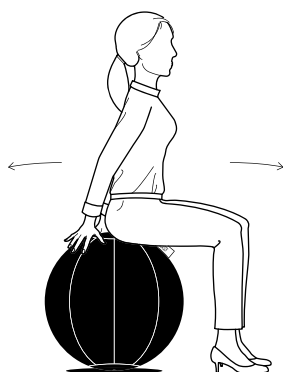

### Functional label

Makes it easy to lift, carry and reposition the ball.

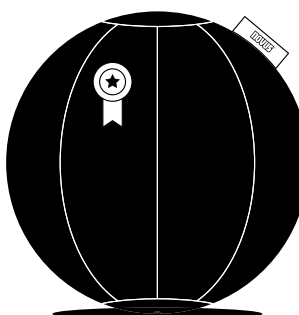

### Clear design language

The ball's minimalist design means it fits right into modern open-space offices, too.

### Ergonomic sitting

The ball's shape keeps you constantly moving.

### High-quality materials

A precisely constructed cover of imitation leather.

**NEW**

## NOVUS Pila Brown Leather

- The shape of the NOVUS Pila seating ball makes it ideal for ergonomic sitting and it perfectly balances your movements. Dynamic sitting keeps you constantly moving and gives you strengthened and healthy back muscles.
- The internal weight reinforcement in the ball creates a centre of gravity, so that the NOVUS Pila seating ball is self-levelling. As a result, the ball does not roll away, and the seat remains dust and dirt free.
- The handy label makes it easy to lift, carry and reposition the NOVUS Pila seating ball.
- Thanks to its elegant, timeless and clear design, the NOVUS Pila seating ball fits into any furnishing style, whether in the office or in your own home office.
- The NOVUS Pila seating ball has a precisely constructed cover of high-quality imitation leather that is easy to remove and clean.
- Delivery includes a cover, a PVC inner ball, a manual air pump, 2 self-closing valves and a pump adapter for commercial air pumps.

## Technical specifications

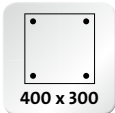

### Standard monitor mount

The standard mount to use with any monitor compatible with 75 x 75 mm or 100 x 100 mm attachment standard.

### Column length

The value indicates the height of the column above the desk in mm.

### Monitor mount

This mount is to attach monitors compatible with the attachment standard given in mm. (The maximum possible standard is indicated.)

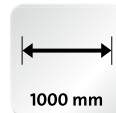

### Height above desk

The value indicates the minimum and maximum distance between the product and desk surface.

### Monitor weight

This value indicates the maximum load-bearing capacity of the supporting element or the maximum weight of a monitor in kg.

### Width

The value indicates the width of the product in mm.

### Carrying capacity

The weight shows the maximum weight in kg that the product is allowed to carry.

### Range

The value indicates the product's range in mm.

### Dimensions of support platform

The value indicates the size of the platform in mm.

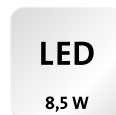

### Swivelling range

The value indicates the product's possible swivelling range in °.

### Adjustability

The device is easily and infinitely adjustable, thanks to its patented spring balancing mechanism.

### Power consumption

The value indicates the lamp used and the power consumption in watts.

### Adjustability

The device can be clicked into three fixed positions.

### Diameter

The value indicates the diameter of the Pila seating ball in cm.

### Colour temperature

The value indicates the colour temperature in kelvins.

### ENEC certified

This product meets the requirements of the EU General Product Safety Directive

### German Engineering

The "German Engineering" quality mark guarantees that the product has been developed by our engineers in line with German quality standards. Production takes place in our own factories across the world, managed from Germany.

### GS certified

TÜV Nord tested in accordance with the German Product Safety Act.

# Novus & Dahle:

quality, functionality & design

## under one roof.

For over seventy years, the emco Group in Lingen has stood for high-quality “German Engineering” and innovative product development. Today, with its four strong brands, emco, Novus, Dahle and emco e-scooter international, it operates successfully and internationally in a wide range of industries.

The Dahle and Novus brands are the experts for everything to do with office technology. Created to meet a wide variety of different workplace requirements, their diverse product ranges offer innovative details to make your daily working life that bit easier and more efficient – and all in an attractive design.

Novus is an expert in the business area of fastening technology, too. Here, the company supplies a reliable range of universal tackers and riveting tools for the home, hobby and professional sectors for a vast range of applications.
